

God Made Everything

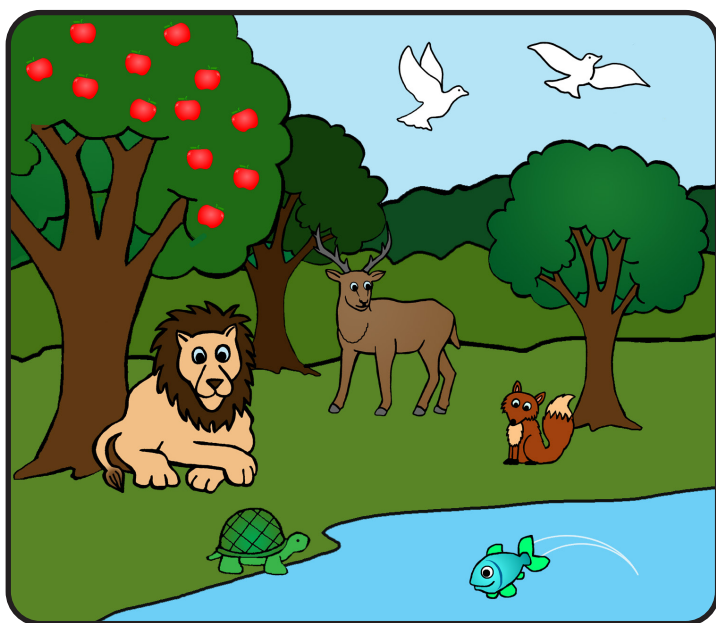

Today's Bible story is from Genesis 1:1-10, 1:24-2:3.

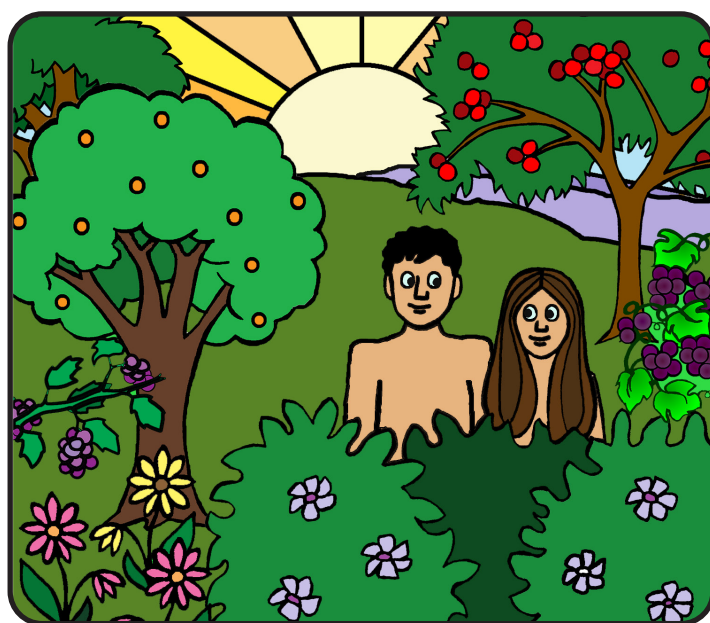

In the beginning, there was nothing but God. God said, "Let there be light!" And suddenly light appeared!

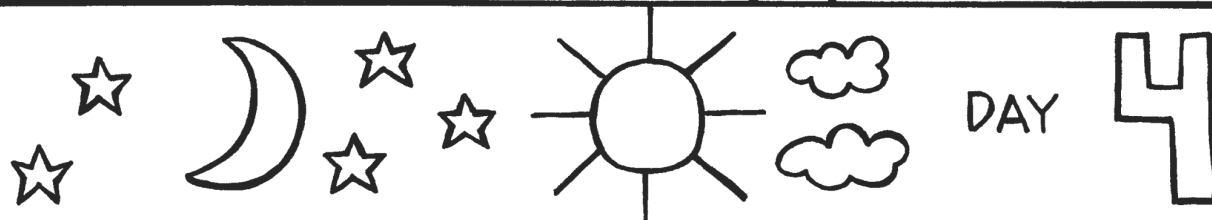

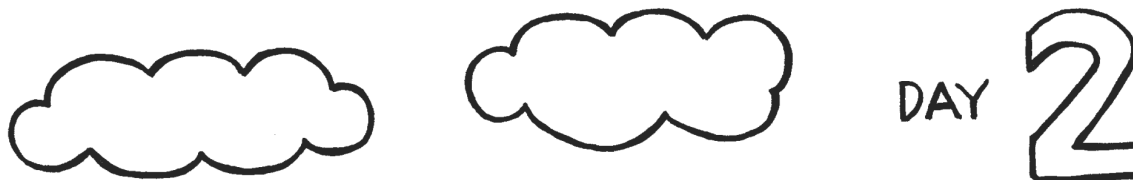

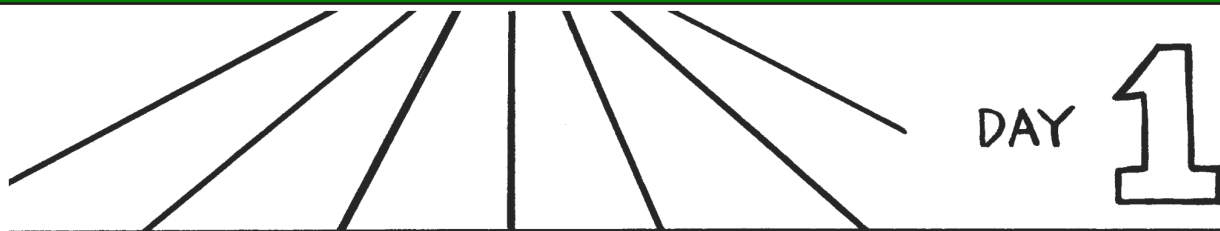

Then God made the sky above and the land below and separated the waters into seas. He made green plants grow all over the earth.

God made the sun and moon and stars. He also made creatures like fish and birds, and all the animals that live on the earth.

Finally, God made people to take care of all the things he had made. When he was done creating, God rested.
